GO Willow! Made In Collingwood

Willow is the ultimate eco-friendly sustainable material

- It is a sustainable crop. Every year we harvest it and every year it grows back.
- It is completely biodegradable
- Grown in Collingwood
- It is strong and flexible and can be woven into many shapes and sizes.
- It is attractive and grows in many varied colours.
- It grows well in our climate, up to 3 metres a year with all the rain and sunshine.
- It is environmentally kind and needs no chemicals to make it grow.

Go Willow! caskets are leakproof.

They are fitted with three layers

- first a recycled wool layer, on the base.
- then a biodegradable, waterproof cornstarch liner, affixed to halfway up the side of the casket
- and to finish, the linings to the base/sides and lid are made of unbleached calico cotton.

They also include a pillow made of unbleached calico cotton.

Price on Application and subject to availability.
